Economics Major

Meet the Faculty

The required core curriculum provides economics majors with a foundation to pursue either economic theory or applied economics. Students must take core courses in the Arts and Sciences Program at Rollins, although transfer students may transfer core equivalents at time of enrollment.

Potential majors and minors should take a **100-level** course in the first year. Some **100-level** courses fulfill requirements only if taken prior to ECO 202.

Since most economics courses have prerequisites, students should contact a member of the Department of Economics for academic advice in the first year to plan their course of study.

Major Requirements

Twelve (12) courses are required: eight (8) core courses, including a capstone course to be chosen from among three (3) **400-level** electives, and four (4) electives.

Core Courses

Course Name	Crs:	Term Taken	Grade	Gen Ed
ECO 202 - Introduction to Economics in Historical Perspective <i>Prereq(s):</i>				
ECO 203 - Principles of Micro and Macroeconomics				
ECO 221 - Statistics for Economics <i>Prereq(s):</i>
