Archaeology Minor

Faculty teaching Archaeology courses include members of the Expressive Arts, Humanities, and Social Sciences Divisions in the College of Arts and Sciences. Please see the schedule of classes for each academic term for specific assignments.

The archaeology minor combines the courses in anthropology and art history for an overall study of human societies from great antiquity to the present. The program is interdisciplinary and multicultural with a variety of topical and methodological perspectives, including prehistoric, classical, and historical archaeology. Students aspiring to graduate studies in archaeology may combine the minor with a major in anthropology or classical studies.
